| MIXER* | CAPACITY | POWER |
| Gas | 13 cu ft (370L) | 13 hp (10kW) Kohler CH13 |
| Diesel | 13 cu ft (370L) | 7.8 hp (6kW) Hatz 1D41Z |
| Electric | 13 cu ft (370L) | 5 hp (4kW) |

*Hydra-Flow™ mixer standard; other brands available. Weights vary with options selected. Specifications subject to change without prior notification. Photos represented in this brochure are for informational purposes only. Always refer to the appropriate operators manual for safe and proper operation of Putzmeister equipment.

Multiple Configurations

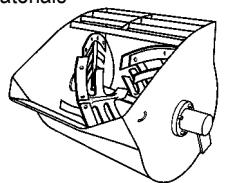

The Tommy Gun can be built to your specific needs. Choose from:

- Tag, Mobile or Skid
- Gas, Diesel or Electric
- With or Without Mixer
- A Full Array of Options Including Gear Box Mixers

Mixer

All models are available with a 13 cu ft (370L) paddle mixer. This powerful mixer easily holds a three to four sack mix and utilizes a superior blade design to mix all materials thoroughly and quickly.

Putzmeister

Tommy Gun® A3 Series

Often imitated but never duplicated, the Tommy Gun is still the top plaster and fireproofing pump in America today.

Since acquiring the original Thomsen design in 1982, Putzmeister has modified the Tommy Gun to meet changing industry needs. However, the basic time proven design is the same. We build it rugged enough to last; use only the most reliable components for peak performance; and never cut corners when it comes to quality. This ensures optimum performance and the highest resale value.

Top “Gunning” for Over 40 Years Efficient, Trouble-Free Performance

Tag version with detachable tow bar shown; mobile available.

Plaster / Stucco

The Tommy Gun's 3-1/2" (89mm) cylinder is ideal for high pressure, long distance plastering. Even the coarsest and most troublesome mixes will flow in a smooth easy-to-control stream, no matter how difficult the conditions. This mechanical piston ball valve pump also features a 2" (50mm) outlet and 4-speed variable drive.

Fireproofing

For high volume fireproofing, rely on the Tommy Gun with its large 3-3/4" (95mm) cylinder, long 8" (200mm) stroke and 3" (76mm) outlet to deliver up to 60 bags an hour. This mechanical piston ball valve unit also offers 4-speed variable drive and an adjustable two-position stroke for the smoothest pumping.

Gas powered model also available.

Mobile with heavy-duty frame and trailer shown; tag available.

IDEAL FOR: Fireproofing • Plaster - Exterior and Interior • Injection Work • Stucco • Kool Decks • Exposed Aggregate Pools • Pool Plastering • Mortar • Grouts • Floor Leveling Compounds • Concrete Repairs • Specialty Materials

All Pumps Are NOT Created Equal

Pumps may look alike, but what counts is performance. Make sure you get all the high quality Tommy Gun features below. Don't accept any substitutes.

- Heavy-duty drive train with stronger 2-15/16" shaft. Massive flame-cut primary and secondary pillow block bearings — complete with forged crank and Timken™ roller bearings.

- All galvanized hopper and screen (screen provided with plaster versions only).

- Vertical cast steel pump manifold lasts twice as long as cast iron.

- 14 cfm, 2-piston Quincy™ air compressor.

- Centralized lubrication system for quick and easy maintenance.

- Choice of remote control nozzles — 1-1/4" or 1".

- Automotive quality prep, prime and paint finish with custom colors available.

- Detailed and comprehensive operator and parts manuals — supported by experienced parts personnel and large parts inventory.

- Backed by Putzmeister America.

10 Spraying Stucco

For over 40 years, the A3 Tommy Gun has been the number one pump for pumping and spraying exterior plaster. Other pumps may look like a Tommy Gun, but none are as reliable and hard-working as the original.

11 Fireproofing

The A3 Tommy Gun is the most reliable pump on the market for spraying a wide variety of fireproofing materials.

12 Swimming Pool Plaster & Exposed Aggregate

The overwhelming choice of swimming pool plasterers all over the United States, the A3 Tommy Gun is available with a powerful diesel engine and hydraulic “Hydra-Flow™” mixer.
